Barracuda Lacrosse Registration Open!

Barracuda Lacrosse are competitive Pee wee A, Bantam A and Midget A teams that provide an outlet for players to build on their game by playing at the next level.

The A teams will be rostered from Pee wee, Bantam and Midget players that are registered to play with the SLA through their local Member Association. Players that make the team will play on both their house team as well as the Barracuda A team.

The Pee wee, Bantam and Midget A teams will travel to Saskatoon and Calgary taking part in tournament play. These teams will also practice at least once a week and will play exhibition games against QCMBL house teams in the division above. Fee per player is projected to be about \$500.00, travel expenses are not included.

All coaches will coach the same style of play and will have a benchmark of skills that will be coached at each division. These benchmarks that will follow set parameters the CLA has outlined for A teams in their respective division. Each team will have a head coach that has coached young lacrosse players both at high levels and house leagues. All [coaches](#) have grown up playing the game in Saskatchewan.

Saskatoon SWAT Tournament.

The Saskatoon Box Lacrosse Association will be holding their Pee wee A, Bantam A and Midget A SWAT tournament in May of 2017. This tournament is expected to draw teams from Alberta and Manitoba. The teams from the Edmonton and Calgary associations have had tiered lacrosse for quite a few years now that is producing great lacrosse players competing in Jr A divisions as well as playing in the NLL. Saskatoon has an A program called SWAT that has been running successfully for only five years. From this program they have grown their Junior program from Junior B Tier 2 teams in the PGLL to competing in the RMLL with both Junior B Tier 1 and Junior A teams.

Calgary Canada Day Tournament

The [Calgary Canada Day Lacrosse Tournament](#) is the longest running lacrosse tournament around! This tournament is held the July 1st long weekend and has had teams from all around western Canada as well as Eastern Canada, California, Colorado and Washington. There was a team from the Czech Republic this past year. The players will play against some of the best players in their age group and come out of the tournament with a whole new perspective of the game!
